passes its bar
chance or in-sample only
below the length baseline
ArmnetBench, 2,047 rollouts
operator stops each run, no set limit; failed runs are slow
episode length alone AUROC 0.942 within policy
zero-shot reward models 0.821 and below, the fine-tune 0.994 on its own training episodes
our rollouts, 88 operator-stopped
the operator stops each run, failed or not
episode length alone AUROC 0.52, chance
whole-episode judge AUROC 1.00; no mid-episode monitor reaches its bar
